From the INTERNATIONAL SEARCHING AUTHORITY	
To: ABELEV, Gary., ESQ.	PCT
DORSEY & WHITNEY LLP 250 Park Avenue New York NY 10177 USA Patent Wall Fiece MAR 0 3 2009	NOTIFICATION OF TRANSMITTAL OF THE INTERNATIONAL SEARCH REPORT AND THE WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY, OR THE DECLARATION (PCT Rule 44.1)
	Date of mailing (day/month/year) 24 FEBRUARY 2009 (24.02.2009)
Applicant's or agent's file reference 189592/PCT	FOR FURTHER ACTION See paragraphs 1 and 4 below
International application No. PCT/US2008/076447	International filing date (day/month/year) 15 SEPTEMBER 2008 (15.09.2008)
Authority have been established and are transmitted her Filing of amendments and statement under Article 1 The applicant is entitled, if he so wishes, to amend the	9: Laims of the international application (see Rule 46): normally two months from the date of transmittal of the PO, 34 chemin des Colombettes 1:44 122 338 82 70
 The applicant is hereby notified that no international se Article 17(2)(a) to that effect and the written opinion of 	arch report will be established and that the declaration under the International Searching Authority are transmitted herewith.
the protest together with the decision thereon has be	ititional fee(s) under Rule 40.2, the applicant is notified that: een transmitted to the International Bureau together with the protest and the decision thereon to the designated Offices.
no decision has been made yet on the protest; the a	oplicant will be notified as soon as a decision is made.
4. Reminders Shortly after the expiration of 18 months from the priority date, Bureau. If the applicant wishes to avoid or postpone publication, priority claim must reach the leavest that the priority of the state of the priority of the state of the s	the international application will be published by the International a notice of withdrawal of the international application, or of the

Bureau as provided in Rules 90bis.1 and 90bis.3, respectively, before the completion of the technical preparations for international publication.

The applicant may submit comments on an informal basis on the written opinion of the International Searching Authority to the International Bureau. The International Bureau will send a copy of such comments to all designated Offices unless an international preliminary examination report has been or is to be established. These comments would also be made available to the public but not before the expiration of 30 months from the priority date.

Within 19 months from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later), otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices.

In respect of other designated Offices, the time limit of 30 months (or later) will apply even if no demand is filed within 19 months.

See the Annex to Form PCT/IB/30I and, for details about the applicable time limits, Office by Office, see the PCT Applicant's Guide, Volume II, National Chapters and the WIPO Internet site.

NOTES TO FORM PCT/ISA/220

These Notes are intended to give the basic instructions concerning the filling of amendments under Article 19. The Notes are based on the requirements of the Patent Cooperation Treaty, the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and those requirements, the latter are applicable. For more detailed information, see also the PCT Applicant's Guide, a publication of WIPO.

In these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

INSTRUCTIONS CONCERNING AMENDMENTS UNDER ARTICLE 19

The applicant has, after having received the international search report and the written opinion of the International Searching Authority, one opportunity to amend the claims of the international application. It should howeve be emphasized that, since all parts of the international application (claims, description and drawings) may be amended during the international preliminary examination procedure, there is usually no need to file amendments of the claims under Article 19 except where, c.g. the applicant wants the latter to be published for the purposes of provisional protection or has another reason for amending the claims before international publication. Furthermore, it should be emphasized that provisional protection is available in some States only (see PCT Applicant's Guide, Volume I/A, Annexes B1 and B2).

The attention of the applicant is drawn to the fact that ammendments to the claims under Article 19 are not allowed where the international Searching Authority has declared, under Article 17(2), that no international search report would be established (see PCT Applicant's Guide, Volume IA, paragraph 296).

What parts of the international application may be amended? Under Article 19, only the claims may be amended.

During the international phase, the claims may also be amended (or further amended) under Article 34 before the International Preliminary Examining Authority. The description and drawings may only be amended under Article 34 before the International Preliminary Examining Authority.

Upon entry into the national phase, all parts of the international application may be amended under Article 28 or, where applicable, Article 41.

When? Within 2 months from the date of transmittal of the international search report or 16 months from the priority date, whichever time limit expires later. It should be noted, however, that the amendments will be considered as having been received on time if they are received by the International Bureau after the expiration of the applicable time limit but before the completion of the technical preparations for international publication (Rule 46.1).

Where not to file the amendments?

The amendments may only be filed with the International Bureau and not with the receiving Office or the International Searching Authority (Rule 46.2).

Where a demand for international preliminary examination has been/is filed, see below.

How? Either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed

A replacement sheet must be submitted for each sheet of the claims which, on account of an amendment or amendments, differs from the sheet originally filed.

All the claims appearing on a replacement sheet must be numbered in Arabic numerals. Where a claim is cancelled, no renumbering of the other claims is required. In all cases where claims are renumbered, they must be renumbered consecutively (Section 205(b)).

The amendments must be made in the language in which the international application is to be published.

What documents must/may accompany the amendments?

Letter (Section 205(b)):

The amendments must be submitted with a letter.

The letter will not be published with the international application and the amended claims. It should not be confused with the "Statement under Article 19(1)" (see below,under "Statement under Article 19(1)"). The letter must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French.

NOTES TO FORM PCT/ISA/220 (continued)

The letter must indicate the differences between the claims as filed and the claims as amended. It must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the claim is cancelled:
- (iii) the claim is new;
- (iv) the claim replaces one or more claims as filed;
- (v) the claim is the result of the division of a claim as filed.

The following examples illustrate the manner in which amendments must be explained in the accompanying letter:

- [Where originally there were 48 claims and after amendment of some claims there are 51]:
 "Claims 1 to 29, 31, 32, 34, 35, 37 to 48 replaced by amended claims bearing the same numbers;
 claims 30, 33 and 36 unchanged; new claims 49 to 51 added."
- 2. [Where originally there were 15 claims and after amendment of all claims there are 11]:
 - "Claims 1 to 15 replaced by amended claims 1 to 11."
- [Where originally there were 14 claims and the amendments consist in cancelling some claims and in adding new claims]:
 - "Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added." or
- "Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged."

 4. [Where various kinds of amendments are made]:
 - "Claims 1 10 unchanged; claims 11 to 13, 18 and 19 cancelled; claims 14, 15 and 16 replaced by amended claim 14; claim 17 subdivided into amended claims 15, 16 and 17; new claims 20 and 21 added."

"Statement under Article 19(1)" (Rule 46.4)

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments might have on the description and the drawings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the amended claims.

It must be in the language in which the international application is to be published.

It must be brief, not exceeding 500 words if in English or if translated into English.

It should not be confused with and does not replace the letter indicating the differences between the claims as filed and as amended. It must be filed on a separate sheet and must be indentified as such by a heading, preferably by using the words "Statement under Article 19(1)."

It may not contain any disparaging comments on the international search report or the relevance of citations contained in that report. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

Consequence if a demand for international preliminary examination has already been filed

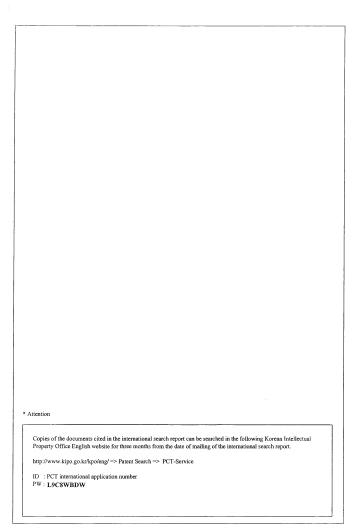

If, at the time of filing any amendments and any accompanying statement, under Article 19, a demand for international preliminary examination has already been submitted, the applicant must preferably, at the time of filing the amendments (and any statement) with the International Bureau, also file with the International Preliminary Examining Authority a copy of such amendments (and of any statement) and, where required, a translation of such amendments for the procedure before that Authority (see Rules 55.3(a) and 62.2, first sentence). For further information, see the Notes to the demand form (PCT/TPEA/401).

If a demand for international preliminary examination is made, the written opinion of the International Scarching Authority will, except in certain cases where the International Preliminary Examining Authority did not act as International Searching Authority and where it has notified the International Bureau under Rule 66.1 bis(b), be considered to be a written opinion of the International Preliminary Examining Authority. If a demand is made, the applicant may submit to the International Preliminary Examining Authority a reply to the written opinion together, where appropriate, with amendments before the expiration of 3 months from the date of mailing of Form PC/TISA/220 or before the expiration of 22 months from the priority date, whichever expires later (Rul 43bis.1(c)).

Consequence with regard to translation of the international application for entry into the national phase

The applicant's attention is drawn to the fact that, upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be furnished to the designated/elected Offices, instead of, or in addition to , the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see the PCT Applicant's Guide, Volume II

Statement			
Novelty (N)	Claims	1-28	YES
	Claims	none	NO
Inventive step (IS)	Claims	1-28	YES
	Claims	none	_ NO
Industrial applicability (IA)	Claims	1-28	YES
	Claims	none	NO

Citations and explanations :

Reference is made to the following documents:

D1: US 2003-0120137 A1 D2: US 2002-0091322 A1

1. Novelty and Inventive Step

1.1 Claims 1-18

The subject matter of claims 1 and 14 differs from these prior art documents in that an apparatus comprises an arrangement comprising an optical waveguide receiving a first and a second radiation, wherein the second radiation has a second wavelength, which is different from the first wavelength, and is produced based on an inelastic scattering of the first radiation. And it is not obvious to a person skilled in the art by the documents, taken alone or in combination. Therefore, claims 1 and 14 meet the requirements of PCT Article 33(2) and (3) with respect to novelty and inventive step.

Claims 2-13 and 15-18 are dependant on claim 1 or 14 and therefore meet the requirements of PCT Article 33(2) and (3).

1.2 Claims 19-28

The subject matter of claim 19 differs from these prior art documents in that computer accessible medium comprises an arrangement using procedures comprising receiving the simulated inelastic scattering radiation into and out of the simulated arrangement and determining a simulated characteristic of the simulated arrangement as a function of the simulated inelastic scattering radiation. And it is not obvious to a person skilled in the art by the documents, taken alone or in combination. Therefore, claim 19 meets the requirements of PCT Article 33(2) and (3) with respect to novelty and inventive step.

Claims 20-28 are dependant on claim 19 and therefore meet the requirements of PCT Article 33(2) and (3)

2. Industrial Applicability

Claims 1-28 are industrially applicable under PCT Article 33(4).
